

**Ruby VASC
Pre-Course Certification**

Registration Information

Ruby VASC Pre-Course Certification

GENERAL INFORMATION

Becoming certified as a Ruby VASC technician is a two-step process:

1. Ruby VASC Pre-Course Certification
2. Ruby VASC Classroom Certification

NOTE: All technicians must first successfully complete the Ruby VASC Pre-Course Certification program. After earning this certification the technician is qualified to register and attend the Ruby VASC Classroom Certification.

The purpose of this document is to convey the Ruby VASC Pre-Course Certification Training information. It includes the necessary forms in order to register for this certification program.

A separate document has been created for the Ruby VASC Classroom Certification.

RUBY VASC PRE-COURSE CERTIFICATION

The Ruby VASC Pre-Course Certification is an online certification program that includes:

1. Online training modules
2. Ruby Tutor – Cashier CD
3. Online test

The primary objective for this course is to familiarize the service technician on basic information regarding the Ruby SuperSystem. This training will prepare the service technician for the classroom training.

This certification is required prior to registering for the Ruby VASC Classroom Certification.

The course will take a student approximately 15 hours to complete. This includes completing the online training modules, the Ruby Tutor - Cashier, and the online test. ***We strongly suggest the student be given time to complete this training during normal business hours.***

NOTE: No registration for Ruby VASC Classroom Certification will be processed until the technician has successfully earned his Ruby VASC Pre-Course Certification.

In the event a technician scores less than 80% on the Ruby VASC Pre-Course Certification, VeriFone representative will notify the technician's manager of the results.

Should the manager wish the technician to retake the Ruby VASC Pre-Course Certification, the course will need to be re-purchased at full price.

Ruby VASC Pre-Course Certification

REGISTRATION

Please register online for the Ruby VASC Pre-Course Certification using the VASC portal.

Online Registration

1. Log into premier.verifone.com and click on Learn.
2. Click the link on the left hand side: Register For Training
3. Select Ruby VASC Pre-Course and complete the form online.

Registrations are processed within 3 business days. We will notify the student using the email address listed on the registration form – **please ensure the email address on the registration form is correct to prevent a delay in the registration.**

The student must complete the Ruby Tutor – Cashier CD *prior* to completing the online test. There will be questions on the test relating to this CD. The order form includes a line item for the Ruby Tutor – Cashier CD. If your company already has a copy of the CD then you do not need to purchase a second copy. Ensure the technician has the CD to successfully complete all the training requirements.

NOTE: The student will be able to access the online training and certification testing for 90 days. If the technician does not complete the Ruby VASC Pre-Course Certification within the 90 day period, the course will need to be re-purchased at full price.

Ruby VASC Pre-Course Certification
